## ABOUT US

Sea And Summit Media & Adventures is a visual media house (outdoor/adventure/travel & tourism) and tour operator dedicated to outdoor experiences that connect visitors to the unique natural beauty of Hokkaido in all seasons.

We aim to showcase the splendor of the island and introducing visitors to the stunning landscapes, outdoor adventure and culture that await. Well known as a winter destination, we aim to increase awareness about Hokkaido's green season allure through experiences and visual media, and to increase summer tourism to Niseko and Hokkaido.

With a commitment to excellence and a passion for adventure, we invite travelers to discover Japan's northern frontier with us.

# NICK HILL FLY CO.

Nick grew up in the middle of the United States on a small farm in Ohio. As far back as he can remember, he was going out to the water to try and catch a fish. As a kid it was bluegill and bass on the farm pond, and as an adult it's been primarily trout and char on the fly.

Years later, Nick relocated to the rocky mountains to bigger and rivers in a more rugged environment, and naturally honed his skills catching and releasing bigger fish in Montana, Utah, Idaho and Colorado.

Thousands of flies and hundreds of days on the water later, Nick has developed a unique approach and fishes our local Hokkaido rivers nearly every day. He lives and breathes fly fishing.

Nick is a master fly tier and using his vice and a plethora of raw materials, he recreates the flies he sees on the rivers, leading to more successful catches.

Guests have the opportunity to purchase Nick's handmade flies to use on their home rivers or to keep as souvenirs of their time in Hokkaido.

# FLY FISHING TOUR OFFERINGS

## HALF DAY

4 hours in duration with morning or afternoon start times to best suit your schedule.

For beginners, the focus is on education and instruction - equipment, casting technique, fly selection, and fly fishing philosophy. Hopefully guests will get their first fish on the fly!

For experienced anglers the tour is catered to the guests' goals, what type of fly fishing and target species they prefer, and putting them in the best spots for a successful catch

## FULL DAY

8 hour tours give us ample time to fish multiple locations based on conditions and any client requests.

The bite can be better at different times of day and these tours give us a better chance to be on the water when the time comes. We can hike in with food and stay out on a long river section all day, or break for lunch and change locations.

Perfect for guests ready to take a deep dive into fly fishing, or for experienced anglers looking to explore the local river systems.

## MULTI-DAY

Explore more of the Shiribetsu river and the tributaries that feed it. Or experience the raw and rugged Central or Eastern regions of the island... Hokkaido's wilderness frontier.

With a variety of larger rivers to choose from and stunning landscapes, guests will fish for amemasu (white spotted char), rainbow trout, and explore catch-and-release rivers that are known for their trophy-sized fish.

If you want to explore Hokkaido's pristine wilderness, then this multi-day tour is for you!
